Professional Profile

Web Developer with about 3 years of experience across digital agencies and freelance projects. I build responsive websites and web apps in React, TypeScript and JavaScript (ES6+), with GSAP animations and interactive 3D experiences in Three.js and WebGL. I also work with WordPress and Elementor Pro, with a focus on on-page SEO, performance and accessibility.

Professional Experience

2026 - present

Freelance Web Developer || Self-employed

I design and develop websites and web apps for small businesses and local companies, from requirements gathering to deployment. I work with React, TypeScript and WordPress/Elementor Pro, with GSAP animations and 3D in Three.js. I handle technical analysis and quotes for complex projects, such as an automotive marketplace and a 3D product configurator with AI.

January 2026 - June 2026

Web Developer || Bliss Agency

End-to-end development of websites and web apps for high-end international clients, both in custom React and in WordPress with Elementor. Built responsive interfaces and web animations to the visual standards of premium brands, implementing on-page SEO.

June 2025 - September 2025

Content Editor || Publicis Sapient

Managed content for the Maserati EMEA websites on Adobe Experience Manager (AEM), for the Stellantis group, within a fully remote international team. Edited, published and updated content and contributed to the online launch of MC Pura and MC Pura Cielo (summer 2025).

January 2022 - June 2022

Graphic Designer || Andrea Leonardi s.r.l.

Created graphics for corporate videos and presentations with Canva, in collaboration with the copywriting team. Fully remote.

Education

2024-2025

Full Stack Web Development Master **EPICODE**

Intensive 6-month course on frontend and backend: React, JavaScript, Java, Spring Boot, PostgreSQL, REST API.

2022 - ongoing

Bachelor's Degree in Economics, **Sapienza** University of Rome

2016-2021

High School Diploma in Administration, Finance and Marketing

|| I.I.S. Luca Paciolo. Final grade: 80/100.
