

Alessandro Coretti

Junior Full-stack developer

Braccinao, RM || 06/04/2002

About me

I'm specialized in creating seamless and high-performance user experiences, I bridge the gap between design sensitivity and rigorous frontend logic. My focus is on writing clean, maintainable code, treating every interface as an ecosystem of scalable atomic components. My mission is to transform complex designs into impactful technical solutions, ensuring lightning-fast load times and flawless accessibility. I am looking for a dynamic team where technological innovation is at the heart of the project.

Professional experiences

January 2022-June 2022

Graphic Designer || Andrea Leonardi s.r.l.
Six months full-remote experience in which I created graphics for videos and meetings using Canva, also working with the company's copywriters.

June 2025 - October 2025

Content Editor || Publicis Sapient

It was 6 months of completely remote work. I was placed on a team where we handled all requests made directly by customers on a global scale, for editing, publishing, and updating content. Working for Stellantis and Maserati, I personally managed the EMEA area of the Maserati automotive sites. I also participated in the launch of the collection released in summer 2025 of the "MC Pura" and "MC Pura Cielo" cars.

January 2026 - now

Web Developer || Bliss Agency

In my current role at Bliss Agency, I specialize in the end-to-end design and development of premium digital experiences for a roster of elite, world-class clients. My technical expertise spans both custom React development and high-fidelity site building with Elementor, allowing me to deliver scalable, responsive, and visually stunning web solutions. Beyond core development, I drive digital growth through in-depth SEO research and implementation while producing sophisticated graphic assets, ensuring that every project meets the rigorous aesthetic and functional standards required by top-tier international brands.

Pursuant to Legislative Decree 101/2018 and art. 13 of the GDPR (EU Regulation 2016/679) I authorize the processing of my personal data present in the curriculum vitae
